THE TWEED LOOP

ISSUE XXX, SUMMER 2022

MEMORIAL CENTER UPDATE

The Memorial Center continues to be in great shape due to the efforts of Mike and Bonnie Shewairy. Mike paints needed areas, does carpentry work, hangs towel dispensers, toilet paper dispensers and cleans commodes! In essence, Mike is the ultimate handy man. Bonnie maintains the office and does an unbelievable amount of correspondence with members and with people who wish to take the Tweed Study Course. They are a great team and we are very appreciative for their services.

The highway project in front of the Memorial Center continues to drag along. When the Course was held in March/April, the area of Broadway in front of the Foundation was essentially a mud hole. By June there had been a lot of paving and plants are being planted in the median. Hopefully, everything will be finished and we can have a nice street in front of the Memorial Center by September. The only issue is that one will never again be able to turn left out of the Memorial Center parking lot because the median is totally blocked with plants and concrete. We fervently hope that a new and beautiful Broadway will help rejuvenate the area so that we will have less of a problem with street people!

33RD BIENNIAL MEETING

It is time to register and plan to attend the 33rd Biennial Meeting. Enclosed with this newsletter is the tentative program which is also posted on the website. You can see that there are many, many members who have agreed to participate on the workshop program and on the meeting program. The workshop should be a very interesting and exciting three days that leads into a wonderful meeting. The registration fee is low because the Foundation's Endowment will offset the cost of the meeting. There is no way that we can pay for all the food, the AV and all the other things for which the hotel will charge with the very nominal registration fees for the workshop and the meeting. Be thankful that we have a great Endowment! This meeting and workshop will be a rare opportunity to spend some time at the Dove Mountain Ritz Carlton at a very reasonable room rate. The Foundation member will be responsible for only the room rate plus taxes. Resort fees and other fees will be paid out of the Foundation's Endowment Fund. Please plan to participate and enjoy the camaraderie of the workshop and the meeting.

TWEED STUDY COURSES

The Tweed Study Courses in March/April and the two Courses in June were successfully conducted by the teaching staff. Several USA graduate programs sent students to both the March/April Courses and to the two June Courses. We also had students from Italy and France as well as from Saudi Arabia, Serbia, Albania and many other countries. We remain pleased with the seven day Course and have gotten nothing but positive feedback from those who have attended as well as those who have instructed. Everyone says that it is a raging success. Enclosed in this newsletter are some photos from the Courses.

DUES PAYMENT

Dues notices are being sent! PLEASE, PLEASE, PLEASE pay your dues so that Bonnie does not have to waste her time sending four/five emails to remind you to pay your dues. This costs money, a lot of time, and ultimately, costs the Foundation more money than the dues payment itself. Please pay your dues in a timely manner.

SCENES FROM THE COURSE

SCENES FROM THE COURSE

WORKSHOP - MONDAY, OCTOBER 24, 2022

8:30	Welcome Registration Dispense Materials
9:00	Introduction Class II Correction with Maxillary First Premolar, Mandibular Second Premolar Extraction
